

# Sample Intervention Menu

## What is this?

A menu of interventions to use with the students you support. This menu is adapted from the Intervention Menu that teachers created at McDevitt Middle School in Waltham (MA). You can use this template to empower all staff to develop their own intervention menu! It can be even more powerful and effective when all people bring their own ideas and learnings to the menu.

## How should I use it?

- When you are developing an action plan during Early Warning meetings, reference the menu that you and your team create on how to support your students.
